

**CREATIVE** TOUCHES

## Introduction

Beautiful walls, floors and ceilings are always the first step to creating a beautifully decorated house, setting the tone for everything to follow. A perfectly designed space enhances your beautiful curtains, paintings and furniture to create a dream home that you can be proud of. Creative Touches is an interior design company with an implementation side specialising in an array of different high quality paint, texturing and finishing services that can transform any house into a masterpiece.

## What we do

We offer a bespoke service, approaching every project as a unique challenge with a comprehensive solution that starts with consulting on and designing the perfect space within your home, office or lodge. The next step is the implementation, done by our specialist departments to ensure a complete and professional finish. These departments go under the following names, and are collectively known as the Creative Touches Series.

## Sandstone Creations

By using a selection of the best quality sandstone tiles and different techniques, we create striking facades and wall faces that become a beautiful focal point in any room.

## Painting Creations

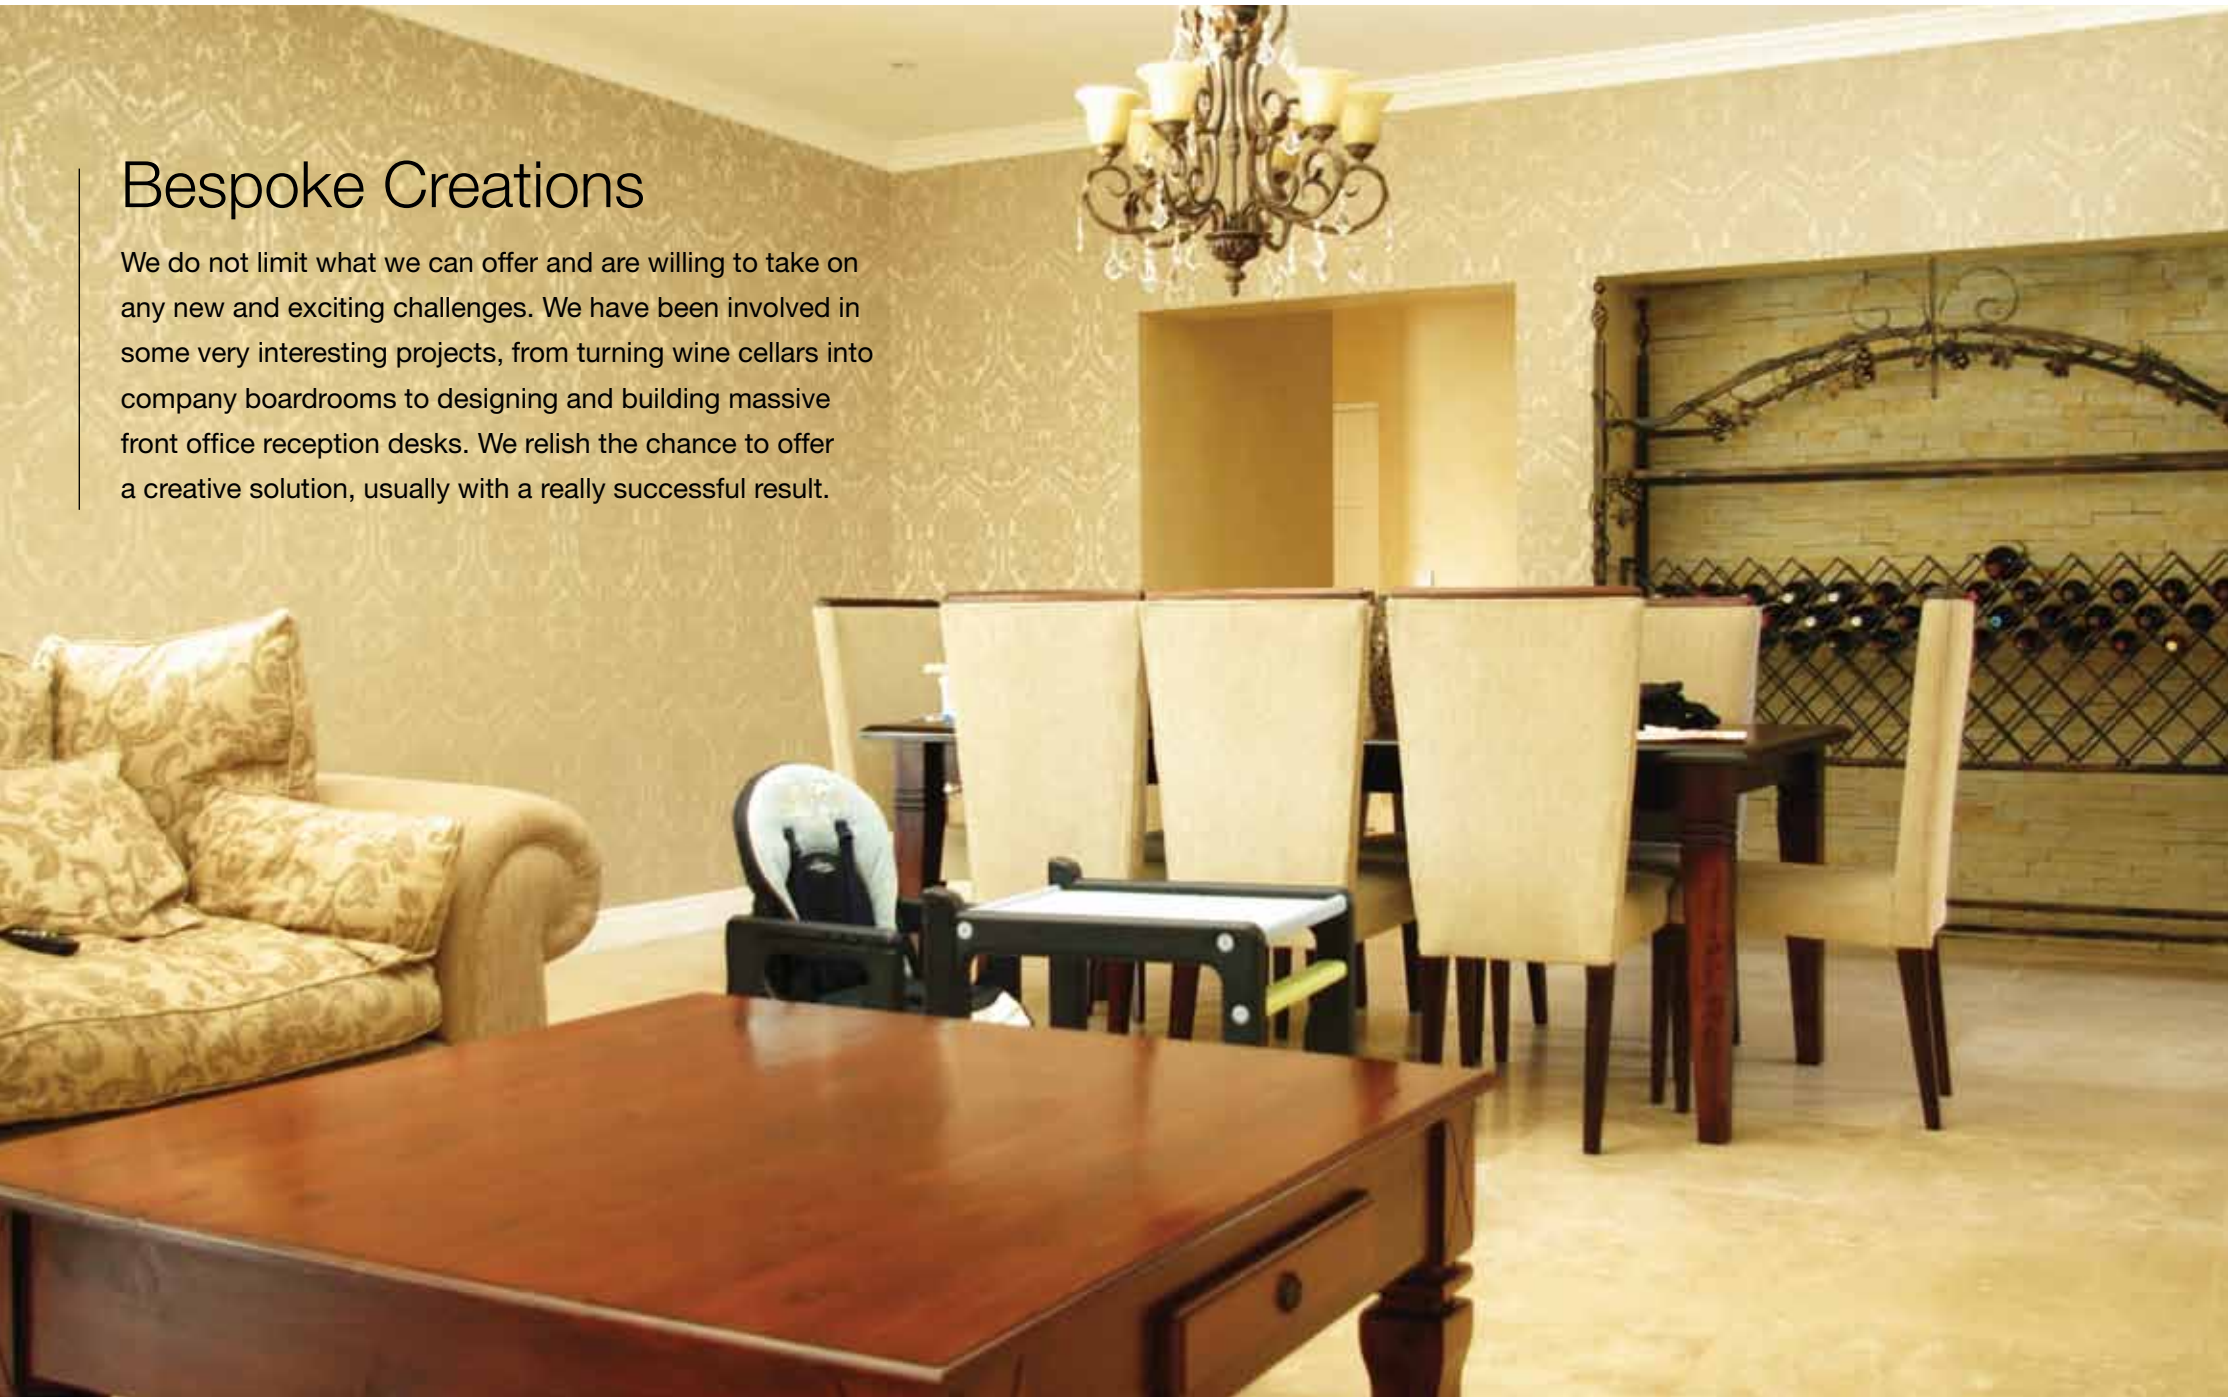

Offering both normal painting and technique painting services. Our techniques range from marble paint to wash techniques and staining. We also offer a unique suede painting technique called the Thundercloud that brings out the full potential of the suede texture.

## Bespoke Creations

We do not limit what we can offer and are willing to take on any new and exciting challenges. We have been involved in some very interesting projects, from turning wine cellars into company boardrooms to designing and building massive front office reception desks. We relish the chance to offer a creative solution, usually with a really successful result.

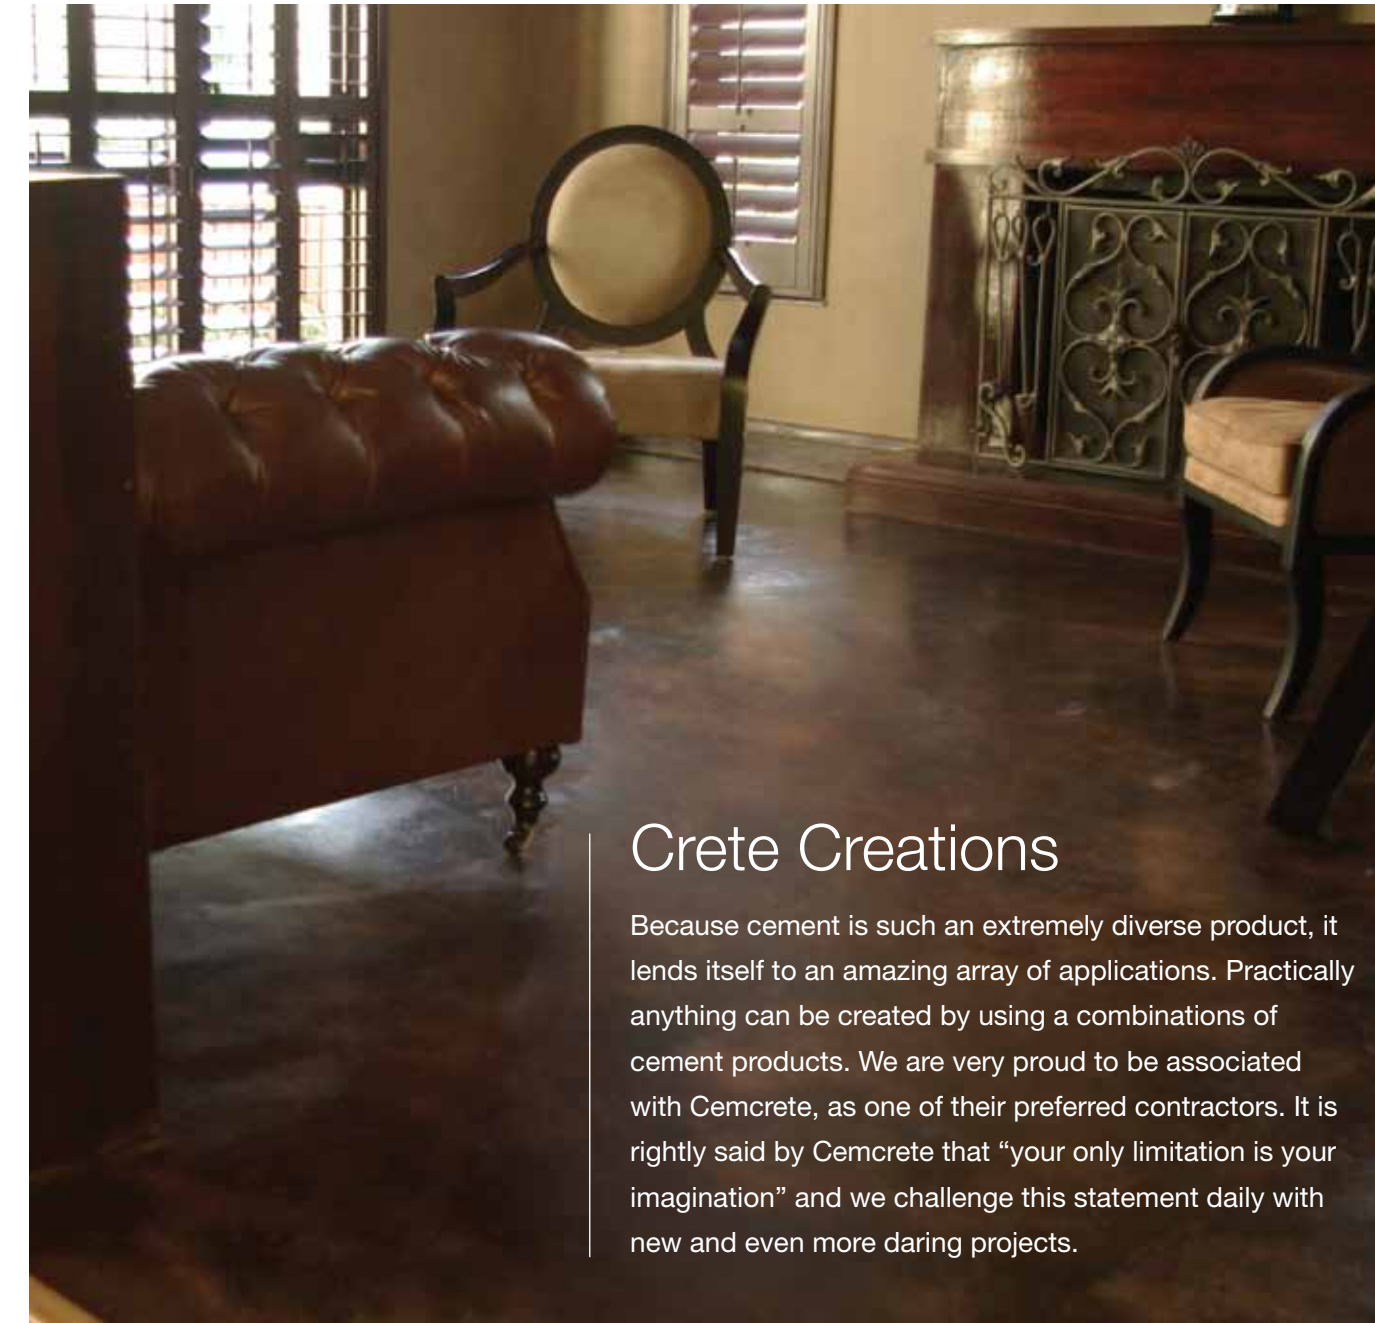

An integral part of any well-designed interior space is the attention to detail. Consequently we offer a special service that focusses on adding that perfect final touches, including:

- > Cornices & Skirting, Dado rails, Wallpaper
- > Tiling and Laminate flooring, Paving
- > Plastering, Rhinolite

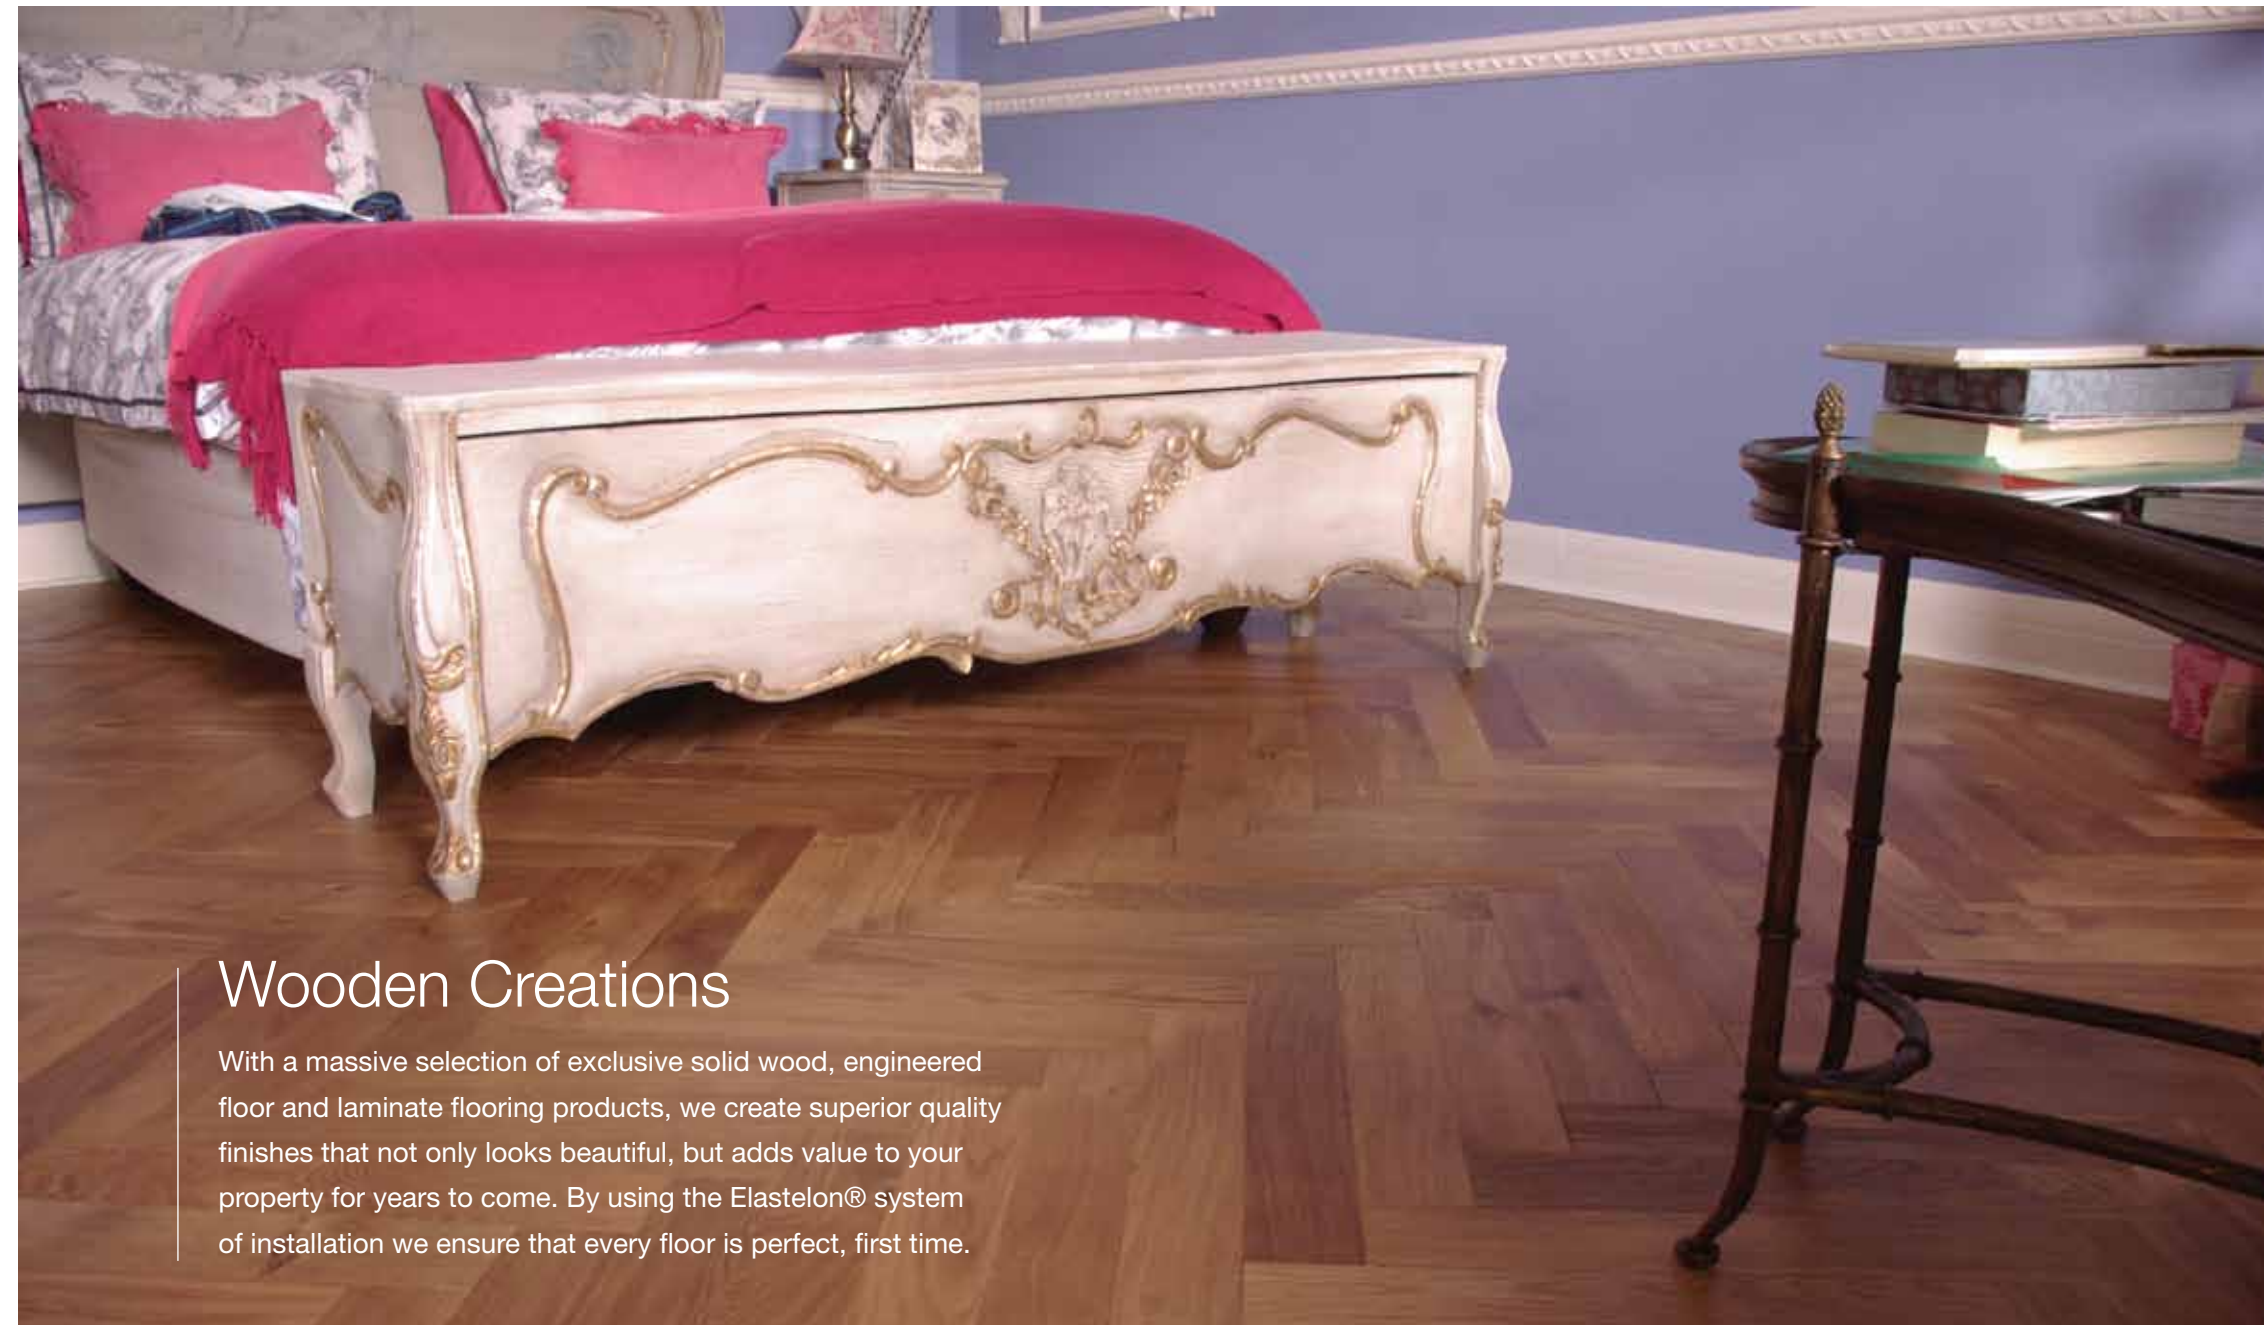

### Crete Creations

Because cement is such an extremely diverse product, it lends itself to an amazing array of applications. Practically anything can be created by using a combinations of cement products. We are very proud to be associated with Cemcrete, as one of their preferred contractors. It is rightly said by Cemcrete that “your only limitation is your imagination” and we challenge this statement daily with new and even more daring projects.

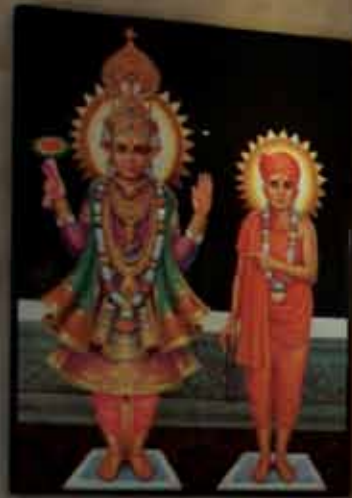

### Wooden Creations

With a massive selection of exclusive solid wood, engineered floor and laminate flooring products, we create superior quality finishes that not only looks beautiful, but adds value to your property for years to come. By using the Elastelon® system of installation we ensure that every floor is perfect, first time.

## Water Feature Creations

Building and installing custom-made water features. Combining the best techniques and finishes to create some of the most beautiful and original water features.

## Making a Difference

We strive to offer a comprehensive solution to every project, working closely with each client to ensure that our final product is met with satisfied smiles, every time.

With Creative Touches you can be sure that you get:

- The most creative design team available
- The most professional implementation teams
- A vast array of the best and most original products available
- A streamlined project management system
- One company that will manage the implementation of everything in your house or office
